OTIS TECHNOLOGY

B.O.N.E.® Tool

INSTRUCTIONAL GUIDE

The B.O.N.E.® Tool was designed specifically to clean carbon and fouling from the bolt carrier assembly area of MSR/AR style rifles. This quick-clean tool scrapes fouling from the bolt, bolt carrier and firing pin. It also includes an 8-32 threaded hole to act as T-handle. Available for 5.56mm (and .223 cal, 300 Blackout &.350 Legend), and 7.62mm (and .308 cal, 6.5 Creedmoor & .243 Winchester)

PRIOR TO CLEANING, ENSURE FIREARM IS UNLOADED.

To use

Remove and disassemble the Bolt Carrier Assembly. Refer to your firearm's owners manual for disassembly instructions.

Bolt Scraper

Bolt Carrier Scraper

Firing Pin Scraper

Bolt Scraper

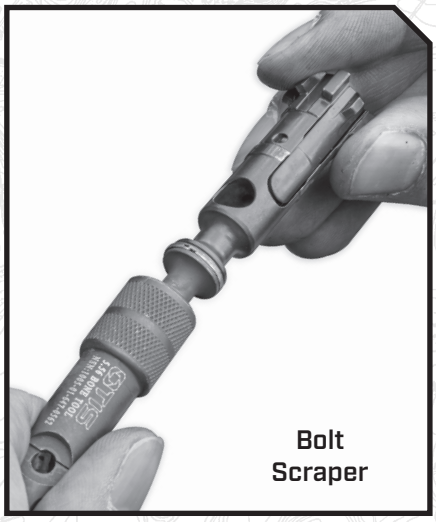
Insert the bolt into the bolt scraper end of the tool. Twist to removed carbon build-up and other fouling.

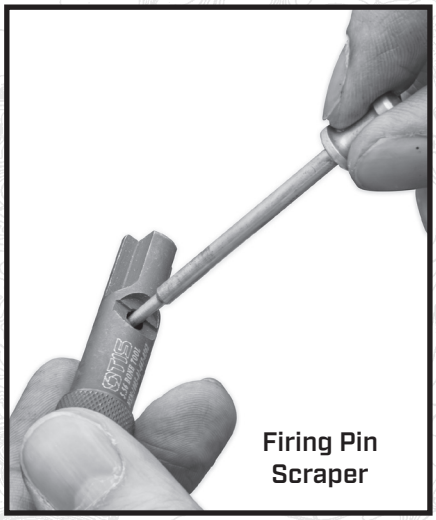
Firing Pin Scraper

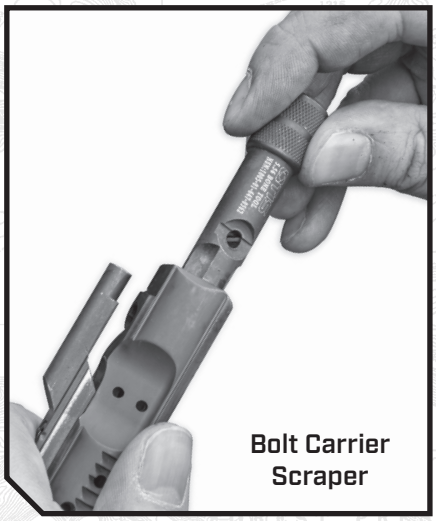
Insert firing pin into the firing pin scraper. Twist to remove carbon build-up and other fouling.

Bolt Carrier Scraper

Insert bolt carrier scraper end of the tool into the bolt carrier. Twist to remove carbon build-up and other fouling.

NOTE






While this tool fits many bolts flawlessly, it may fit some bolts better than others due to variance in bolts by different manufacturers.
